

going up country next week. He is going to take subscriptions for the Rural Press and Miner's Journal to pay expenses and talk business to people and he is to visit a number of the district fairs and write letters to the Bulletin and Press. He expects to have a very good time and I am sure I hope he will. It is a good thing for any body to be happy and have a good time in any innocent way.

Charlie says that Aunt Fannie and Cousin Sue are coming up some time next week.

I want you without fail to come up soon.

Yours. Mann.

I sent my letter to put in with Annie's and save postage but I see she wrote so much last one that mine added would make

available postage  
so I paid  
this  
Mann.

Dear Millie

Thursday.

If Prof. Kellogg had paid you for the second lot of peaches you will I presume have more respect for your Mother's Arithmetic. Charlie went down to day but as he had other business to attend to I did not see how he could take a maulardie.

I have requested Auntie, at her own convenience to take out to you certain things to use for your throat. If you should be in Oakland before <sup>the</sup> ~~you~~ does so please call in and save her the trouble.

Joe evidently takes it pretty hard, leaning the High School

He says the last month  
he was 70. per cent. (6 below  
standard) and No. 25. in a  
class of 44. It would seem  
from those figures that if  
he was not fit to stay in the  
class there were a good many  
others in the same fix, and  
I presume if he could have  
had some one to help him  
evenings he could have  
remained, but likely it  
is best as it is, but I know  
the boy hated it and I feel  
sorry for him.

I have your sewing finished  
but as I know you are not  
needing the things I shall  
not send them till ~~the~~  
first goes.

Do the mosquitoes trouble  
you still. Shall I send you

a big piece of blue netting  
that you can throw over  
your head and sit in peace.  
I have a piece I think.  
Annie, poor child, I know it  
is a sad nearly time for her.  
She does not ~~do~~ complain  
but I know she has a great  
deal to bear. The feeling of  
of lassitude and weakness  
~~is~~ often harder to bear than  
actual pain. There is so  
little I can do to make her  
more comfortable, I feel  
so helpless about it.

I've did not think it at  
all necessary for you  
to go over. He felt able  
to arrange matters himself,  
and told Charlie that he  
thought he should like  
the new school. Charlie is
